Sustainability

Our design and production philosophy is based on the pursuit of simplicity in order to create sustainable and durable collections. Our products have an unmistakeable design which however is subjected to the carefull evaluation of any possible aspects to improve sustainability, durability and reciclability in accordance with the highest international standards. We believe that our responsible approach may effectively reduce environmental impact of our products throughout the entire lifecycle of the various components. We do not use chemicals hazardous or dangerous to the environment, and the materials we use are tested and evaluated for potentially harmful effects on human health and the environment. Where possible, we reduce packaging materials to a minimum, which also optimises transport volume.

Cloud Chair

Materials	**%**
Aluminum	75
Plastic	13
Metal	4
Miscellaneous	8
Total	**14.1 kg**

	%
Recycling	92
Not recycling	8

The materials we select meet high quality standards, guaranteeing durable and eco-friendly products.

At ICF, we use:
- Ecological and/or post-consumer recycled materials;
- Products free from formaldehyde and toxic substances;
- Finishes free from hexavalent chromium.

Each component of the seat can be disassembled for repair, reuse and recycling.

Cloud Chair is a chair weighing approximately 14.1 kg and approximately 92% recyclable when completely and correctly separated.

Cloud Chair is conceived in accordance with the guidelines of eco-design, a technical methodology applied during design of a product in order to reduce that product's carbon footprint and environmental impact.

Note:
Material and Recycling content percentages may vary depending on the specific model evaluated and consequently of the structural materials and finishes of the considered model.

The above sustainability contents refer to model SAM.117.
