

Multipurpose chair

Chair with polypropylene injection molded monocoque shell. Upholstered versions with polypropylene inside shell and padding made of expanded non-deformable polyurethane. Polypropylene clips allow the fixing of the shell to the frame. Fixed or swivel steel frames, either with articulated and adjustable nylon or steel feet or with swivel castors. Fixed 4-leg frame made of painted maple wood with felt glides and steel supporting structure. Versions with 5-star polypropylene or aluminium base on pivoting castors.
